

# Congratulations you have made modifications to your OEM vehicle!

Some facts you need to know....

Any concerns and or issues related to your modification via product and or service **must be communicated in a time manner and returned to DG's** for further diagnosis, if necessary, a tow should be arranged by the customer, at the customers expense.

Misuse, abuse, neglect, alteration and or accident of the vehicle **will void** your warranty, videos and pictures may be used as proof

Tampering with your product outside of a qualified repair shop, using improper fluids and/or improper installation can void your warranty

**Lack of** recommended maintenance and service with record can void your warranty

This warranty **does not include** loss of use, towing, lost earnings and/or personal injury.

The **manufacturer** has the final decision for warranty coverage.

Warranty is **not** valid unless payment has been received and cores returned if applicable.

Parts related, but not specifically and/or recently installed and invoiced parts, are not covered under this warranty agreement and are at the owners expense.

Verification and inspection of the parts or service provided can take between **1-2 weeks**, the customer is responsible to make arrangements for another vehicle during this time at their own expense.

If warranty is denied, the **customer** agrees and is responsible for the diagnosis, shipping and subsequent repair of the vehicle.

## **1000 KM check over of your modification must be performed by DG's Pro Tech to engage the stated warranty**

I have read and agree to the terms and conditions between myself, DG's Pro Tech and the manufacture
